CONSCIOUS DISCIPLINE

The St. John staff continued their training in Conscious Discipline learning about the importance of composure and the power of perception. We learned that our state radiates out 20 feet from us. Therefore it is imperative that we are calm when approaching any situation. By stopping to take a deep breath, we move ourselves to the higher levels of our brain to a calm state where we can make "conscious" choices on how to handle a situation. A

Also, how we perceive a situation impacts how we respond to it. Knowing how a child develops and how the brain develops helps us to understand why a child is acting the way he/she is. This tells us what we need to do to help the child learn the skills necessary to be successful. I wish you well.

-Diane LaGuire-Quinn,
Certified Conscious Discipline Instructor
